Houston District (District 12)

From our review of the public hearing transcripts submitted to this office by your letter of February 25, 1988, it appears that the environmental and public hearing processes have been satisfactorily completed.

Since 100 percent State funds will be utilized for construction, the public hearing data will not be submitted to FHWA. Therefore, you may proceed with the next logical stage of project development.

The news media should be notified by press release that approval has been received.

Sincerely,

Frank D. Holzmann
Chief Engineer, Highway Design
